### DATA ANALYST | SYSTEMS ADMINISTRATOR

Systems Administrator/Analyst with 5 years of collective experience in cybersecurity, network operations, system administration and virtualization. Adept at leading teams of 5+ in a dynamic, fast-paced environment. Possesses a comprehensive background in vulnerability assessment, management, and project management. Managed cybersecurity programs, equipment and networks valued at \$104M. Currently holds an active Top Secret Security Clearance.

- Data Analysis
- Network Security
- Information Assurance
- Server Administration
- Network Design
- System Upgrades
- Virtualization
- Communications Security
- Cloud Wireless Networks

### EDUCATION | CERTIFICATIONS

**Bachelor of Science**, Data Analytics/Data Management, Western Governors University, Expected 2024  
Associate in Science, Information Technology, Community College of the Air Force, 2022  
CompTIA CIOS Certified | CompTIA CSIS Certified  
CompTIA Security+ | Project+ | Network+ | A+  
VMware Certified Technical Associate, Data Center Virtualization  
MCSA Windows Server 2016 Boot Camp  
Velocity 3.7 Sp3 & Hardware Certificate

### PROFESSIONAL EXPERIENCE

**United States Space Force** **2021 - Present**  
**Intelligence Systems Administrator**

- Managed Provided system administration support to a \$90M worldwide Intelligence Communications System servicing Head Quarters, United States Air Forces in Europe, and Air Force in Africa operations in 16 locations
- Managed a \$55M IT network supporting national Space Situational Awareness missions for the Space Operations Center
- Directed operations for 15 work centers tasked with ensuring the delivery of strategic data to command centers critical to national security
- Completed 300K patches for 275 systems, and eliminated critical weaknesses that safeguarded a \$104M network
- Led a work center project that removed 1.2K media devices and 550 pounds of excess equipment resulting in a 100% information system security inspection score

**United States Air Force** **2019 – 2021**  
**Intelligence Network Operations Technician**

- Managed a Worldwide Intelligence Communication System network that maintained 178 servers that supported 1.2K intelligence analysts across 16 centers in 5 countries
- Ensured network security that facilitated Classified file transfers for intelligence operations across 3 areas of operation
- Led a team of 59 that integrated Satellite Communication services with 3 networks and enhanced Nuclear Command, Control and Communication, Force Protection, and Anti-Terrorism capabilities
- Spearheaded an Operation Systems upgrade that delivered a critical software patch for 1.3K systems and eliminated vulnerabilities

### TECHNICAL COMPETENCIES

**Programming:** Python, SQL, R, Java  
**Software:** SCCM/MECM, Velocity, VMware, Nutanix, PostgreSQL  
**Networking:** LAN, WAN, VPN, Wireless, Switches, Routers, Wi-Fi  
**Processes:** Change Management, Imaging, OSI Model, Active Directory  
**Operating Systems:** Windows 7, 10, 11, RHEL 8, Linux

## **ACHIEVEMENTS**

- Achieved over 5,000 downloads in the Google Play App Store
- Personally recognized by Colonel Hanson, the Commander of Space Base Delta 1 on Peterson Space Force Base, Colorado, for leadership and workplace excellence

## **COMMUNITY INVOLVEMENT AND ASSOCIATIONS**

- American Cancer Society, Volunteer
